

# CLASS DETAILS

June 7, 2024  
0830 - 1700

Registration Fee: \$195

4640 Golden Foothill Parkway  
Suite 20  
El Dorado Hills, CA 95762

Students must provide their  
own Structural PPE ensemble.

## Course Overview

Forcible Entry is an essential skill in public safety. First responders need to size-up and effectively force doors and windows to gain access. Proper forcible entry techniques can mean the difference between a quick knock-down and a life saved, or property and life-loss.

This Beginner Forcible Entry Hands On Training (H.O.T.) is designed to build a solid foundation in mastering forcible entry skills using tools of the trade. This workshop is designed for all levels and will review the principles of mechanical advantage and progress capture, and the importance of good ergonomics and techniques utilizing hands-on training evolutions.
